6 weeks Congestion in Singapore

Please note that Singapore is suffering delays at about 5-6 weeks, and heading towards the Christmas rush this delay is expected to continue or possibly worsen. This is also affective vessels trying to leave ports in SEA and NEA, so there are also delays to get on a vessel.

We are doing everything we can to minimise the impact on our clients but where there is no option but to tranship our hands are tied. Stockwells understands this is an extremely stressful time for everyone and I ask our clients to try and maintain patience and know we are trying to do everything we can.

Please don't hesitate to contact us on 1300 786 468 for further information.

Customer Feedback
