Effective 1<sup>st</sup> March 2019, it has been announced that ALL airfreight cargo leaving Australia will require 100%-piece level screening similar to what has been happening to the USA for some time now.

### **BMSB Interim Measures**

In the interim, all LCL/FAK containers shipped from target risk countries will be allowed to move under bond, deconsolidate, and be managed at the consignment (Full Import Declaration - FID) level. Freight Forwarders will experience some delays in processing.

### **Fumigation Requirements to Australia**

**The Department of Agriculture and Water Resources Expect delays on inbound containers under 2018-19 Brown Marmorated Stink Bug (BMSB) seasonal measures due to workload associated with these clearances.**

---

---

The Australian Department of Agriculture and Water Resources has issued guidelines and instructions for the 2018/2019 high risk season (1st September 2018 to 30th April 2019) to prevent brown marmorated stink bug «BMSB» infestations.

These guidelines introduce higher inspection and certification requirements for target high-risk and risk cargoes from target high risk origin regions.

Any target high risk or target risk goods manufactured in, or shipped from these countries are subject to the BMSB seasonal measures.

#### **Road Alert**

Currently a high number of Empties are coming in to Fergusson Terminal. To manage the flow of trucks more efficiently the following processes are to be applied from **Monday 12 November 2018**:

---

---

## Empty Export delivered for a vessel

- All Export Containers must be pre-advised.
- Any Empty container not pre-advised will be pre-advised by the road office staff and the tariff charge of \$20.90 + GST will be applied against the transporter's account.

## Empty Containers for LINK

- Shipping Lines have been instructed to set LNK (Link) as the return location in PortConnect.
- Any Empty units that you are returning and not meeting the above will require a written acceptance from the Line Operator for those empty containers which do not have LNK (Link) set as return location in Port system.

## Stink Bug Season

Please be aware that on some shipments additional fumigation and MPI Inspection surcharges will be incurred.

If MPI want to inspect a groupage container (or LCL), Stockwells NZ will be on forwarding the NZD 5.00/m3 for the inspection. If they then require the whole container to be fumigated there will be an additional charge of NZD 15.00/m3.
